The Leadership Development Center

The Leadership Development Center offers a variety of educational activities and services in leadership programs. The staff works with students, alumni, employers, and friends of the University to create opportunities for student growth and success. The Office coordinates the Leadership Development Program and Student Organization Leadership Initiatives.

Mission of the Leadership Development Program

The Muskingum University Leadership Development Program is designed to cultivate the leadership potential of Muskingum students, using both alumni and friends in the community to assist with this process. Staff and students who work with the Leadership Development Program believe that leadership is not just for people who hold formal leadership positions, and all students are potential future leaders. While the Program is an extracurricular commitment, students do share a common First Year Seminar class during their first semester on campus. Other shared experiences such as group retreats and trips, service projects, meetings with alums, and leadership workshops help students develop their leadership skills and abilities.

The Office also coordinates a variety of Student Organization Leadership programs to help students and their advisors maximize involvement and enhance the overall success of Muskingum University student organizations. In addition, the office coordinates the annual registration and orientation process for student organizations. While participating in student organizations, students develop competencies in areas that lead to greater academic success and build important leadership skills necessary for future endeavors.

How can my company/organization get involved?

- Present information or speak about your experiences in a leadership program or student organization meeting
- Involve a group of students in a new or existing service project
- Help student organizations plan their own leadership retreats or workshops
- Contribute your leadership insights and education to students by mentoring a student leader on campus
- Rebecca Delo, Assistant Dean of Students, for more information. Email rdelo@muskingum.edu today!
