Revision of Interdisciplinary Committee Functions for the APAP

Functions:

a) To review interdisciplinary courses and changes to interdisciplinary programs. This review process will parallel the final review performed by the Curriculum Committee and include both new and existing courses and programs.

b) To advise proposers of new or existing courses and programs as to which consultations or approvals are necessary and provide recommendations along with an assessment of the academic merit and program appropriateness, to the proposer to help with preparation for review by Curriculum Committee.

c) To forward the recommendations along with an assessment of the academic merit and program appropriateness, given to the proposer, to the Curriculum Committee and relevant Division Coordinators.

d) To review student proposals for Self-designed Interdisciplinary Majors and proffer suggestions to the initiating individuals and their faculty advisors as needed.

Membership

a) One faculty member from each of the academic divisions of the University.

b) Two of the members shall be advisors of existing interdisciplinary programs; two of the members shall not.

c) Two students appointed by the Student Senate.

d) The VPAA or a representative from Academic Affairs may serve as an ex officio member.
