

First Year Fall Semester

General Chemistry I
Beginning Calculus
Organismal Biology I
English Composition

Second Year Fall Semester

Organic Chemistry I
Classical Physics I
Intro to Cell & Molecular Biology
English/Social Sciences course

Third Year Fall Semester

Anatomy & Physiology I
Biochemistry I or II

First Year Spring Semester

General Chemistry II
Intermediate Calculus
Organismal Biology II
Social Sciences course

Second Year Spring Semester

Organic Chemistry II
Classical Physics II
Microbiology
English/Social Sciences course

Third Year Spring Semester

Anatomy & Physiology II
Statistics

The following upper-level science courses are highly recommended, and can be taken as offered, starting in the Fall Semester of the Third Year. (Many of these courses are alternate year courses.):

Biochemistry I
Biochemistry II
Genetics
Histology
