2. Justification for change: The Health category (VIII) is designed to develop an understanding of important health issues and to foster choices for students' health throughout life. Because this course focuses on the promotion of health and an awareness of the current issues facing young people today, it would appear to be an ideal way to fulfill the expectations of the Health category. Tying the field experiences to a local health agency will provide a relevant, meaningful connection to the challenges of making healthy decisions in the way one lives.
