# Mini-Fridge Rental Program

## What You Get

The Mini-Fridge is a unique combination of freezer, refrigerator and microwave oven. The unit is able to hold beverages, frozen foods, and microwaveable products. It allows you to prepare favorite dishes or quick meals without having to leave your room.

## How It Works

We have a student staff that will take units from our storage facilities and deliver it to your room. If you move rooms, the same staff will also move your unit from your old space into your new space for you! If you choose to cancel your Mini-Fridge lease this staff will come to your room and remove it for you. Hassle free and no worries about breaking the unit in the move!

## Costs

To lease a unit for the full academic year (fall & spring semesters) the cost is \$250.00 per unit. Roommates who wish to share a unit may split the cost equally amongst themselves. The cost of the unit will be billed directly to each students' account.

Students may lease a unit at any time during the academic year, provided we have units available. Cancelling a lease during the academic year may not result in a full refund.

We only have a limited number of units available for lease during the academic year.
