

2019 Ohio Educator Preparation Provider Performance Report Muskingum University

Institution Profile

(Data Source: Muskingum University)

The mission of Muskingum University is to offer quality academic programs in the liberal arts and sciences in the setting of a residential, coeducational, church-related college and in the context of a caring community where individual fulfillment is encouraged and human dignity is respected. Its primary purpose is to develop intellectually, spiritually, socially and physically whole persons, by fostering critical thinking, positive action, ethical sensitivity and spiritual growth, so that they may lead vocationally productive, personally satisfying and socially responsible lives.

Educator Preparation Provider

Muskingum's purpose is to educate students through quality academic programs that prepare them to lead vocationally productive, personally satisfying, and socially responsible lives. The Department of Education offers a range of licensure and degree opportunities at undergraduate and graduate levels. Our faculty consists of professional educators known for teaching excellence, extensive professional experience, and innovative scholarship. For mutual benefit we work closely with LEAs, state agencies and IHEs on initiatives to enhance our programs for MU teacher and administrator candidates.

Muskingum University

**Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared
by an Ohio Educator Preparation Provider at Muskingum University**

Reporting Period from Sept 1, 2018 to Aug 31, 2019
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results is actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2015, 2016, 2017, and 2018.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

Reporting Period from Sept 1, 2018 to Aug 31, 2019
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses with effective years of 2015, 2016, 2017, and 2018.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results is actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Field and Clinical Experiences for Candidates at Muskingum University

Reporting Period from Sept 1, 2018 to Aug 31, 2019

(Data Source: Muskingum University)

Description of Data:

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

Teacher Preparation Programs

Field/Clinical Experience Element	Requirements
Require edTPA National Scoring from candidates in teacher preparation programs at the institution	N
Minimum number of field/clinical hours required of candidates in teacher preparation programs at the institution	103
Maximum number of field/clinical hours required of candidates in teacher preparation programs at the institution	219
Average number of weeks required to teach full-time within the student teaching experience at the institution	14
Percentage of teacher candidates who satisfactorily completed student teaching	100%

Principal Preparation Programs

Field/Clinical Experience Element	Requirements
Total number of field/clinical weeks required of principal candidates in internship	52
Number of candidates who started internship	12
Number of candidates who completed internship	11
Percentage of principal candidates who satisfactorily completed internship	91.67%

Ohio Educator Licensure Examination Pass Rates at Muskingum University

Reporting Period from Sept 1, 2017 to Aug 31, 2018
(Data Source: USDOE Title II Report)

Description of Data:

Ohio educator licensure requirements include passage of all requisite licensure examinations at the state determined cut score. The reported results reflect Title II data, and therefore represent pass rate data solely for initial licenses. Further, because the data are gathered from the Title II reports, there is a one year lag in accessing the data. Teacher licensure pass rate data are the only reported metric for which the data do not reflect the reporting year 2018-2019.

As of 2013, the Ohio Assessments for Educators replaced the Praxis subject assessments for initial licensure. Some Praxis II assessments are still being reported because recent program completers took those tests in or before 2013.

**Value-Added Data for Students Taught by Teachers Prepared by
Ohio Educator Preparation Providers at Muskingum University**

Reporting Period from Sept 1, 2018 to Aug 31, 2019

Description of Data:

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of, 2015, 2016, 2017, and 2018.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

Pre-Service Teacher Survey Results

Reporting Period from Sept 1, 2018 to Aug 31, 2019

Description of Data:

To gather information on student satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio candidates receive an invitation to complete the survey during their professional internship (student teaching). The results of this survey are reflected here. A total of 3,156 respondents completed the survey statewide for a response rate of 70 percent.

Muskingum University Survey Response Rate = 72.81%

Statewide Survey of OHIO Resident Educators'
Reflections on their Educator Preparation Program

Reporting Period from Sept 1, 2018 to Aug 31, 2019

Description of Data:

To gather information on alumni satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio Resident Educators who completed their preparation in Ohio receive an invitation to complete the survey in the fall semester as they enter Year 2 of the Resident Educator program. A total of 399 respondents completed the survey statewide for a response rate of 12 percent.

National Accreditation Status

Reporting Period from Sept 1, 2018 to Aug 31, 2019
(Data Source: Ohio Department of Higher Education)

Description of Data:

All educator preparation programs (EPPs) in Ohio are required to be accredited by either the National Council for Accreditation of Teacher Education (NCATE), the Teacher Education Accreditation Council (TEAC), or their successor agency, the Council for Accreditation of Educator Preparation (CAEP). Accreditation is a mechanism to ensure the quality of an institution and its programs. The accreditation of an institution and/or program helps employers evaluate the professional preparation of job applicants.

Excellence and Innovation Initiatives

Reporting Period from Sept 1, 2018 to Aug 31, 2019
(Data Source: Muskingum University)

Description of Data:

This section reflects self-reported information from Ohio Educator Preparation Providers on a maximum of three initiatives geared to increase excellence and support innovation in the preparation of Ohio educators.

Teacher Preparation Programs

Initiative:	Appalachian Teaching Fellows
Purpose:	To prepare teacher candidates from the Appalachian region for the unique challenges teachers in the region face on a regular basis.
Goal:	To recruit and prepare quality local candidates for careers as teacher leaders so that they stay in the Appalachian region.
Number of Participants:	12
Strategy:	Muskingum University provides educational grants and mentor support on a yearly basis for two cohorts of teacher candidates who have applied to participate in the Ohio Appalachian Teaching Fellowship. The candidates are exposed to a variety of professional development experiences outside of class that focus on the unique challenges of teaching in Appalachia and help them realize the impact quality teaching can have in their home region.
External Recognition:	This initiative has been sponsored by funds from Battelle for Kids
Programs:	Undergraduate ECE, ISMM, MC, and AYA
Initiative:	Big Ideas: Trauma Informed Teacher Workshops
Purpose:	Ohio's teachers need to learn & implement trauma-informed practices to respond to the growing # of students in the state w/adverse childhood experiences.
Goal:	To prepare in-service teachers to model trauma-informed practices in the field settings of teacher candidates
Number of Participants:	150
Strategy:	The university used a "dine and discuss" model for in-service teachers to participate in a series of four interactive learning experiences led by collaborative MU faculty and district partner teams and centered around Sowers and Hall's work on trauma-informed practices. Participants were from districts where a majority of teacher candidates complete field experience in order to promote the practices that teacher candidates are learning in the classroom. Participants were given continuing education units or offered the opportunity to complete additional online reflections and submit to the university for graduate credit.
External Recognition:	This initiative was an activity sponsored by grant funds received by the Ohio Deans' Compact for Inclusive Education.
Programs:	All licensure areas

Principal Preparation Programs

Initiative:	Assistance to pass OAE for Ed. Leadership 015
Purpose:	To respond to candidate need for test preparation. Building confidence, honing their writing skills and responding to the open ended, extended response questions was the area of most concern.
Goal:	Our goal is to provide encouragement and practice to our candidates so they feel prepared to take or re-take the test.
Number of Participants:	12
Strategy:	The process included several steps. The first step was the creation of a one-hour, non-required online course. A test preparation manual was one text. It contained pertinent vocabulary which candidates practiced for familiarity. Candidates were expected to take the practice test included in the book as a pretest and at the end as a post-test. A second text was a collection of case studies and students were asked to read and resolve four problem scenarios. A test preparation face to face session is offered for those who can attend in person or connect virtually. Questions are reviewed together, and candidates respond verbally to the questions, providing rationale for their answer selection. They also review and report their scores on the test materials found on the OAE Test Website. The result has been that people feel much more prepared to take the test and our passage rate has risen.
Demonstration of Impact:	11 of 12 test takers passed on the first attempt.
External Recognition:	Not external recognition, but our students are very excited when they receive their scores and can barely wait to share their results with us.
